

ELZAB 1969

ELZAB SELF-CHECKOUT WITH CARD PAYMENT MODULE

ELZAB self-checkout with card payment module is new to our offer.

It includes:

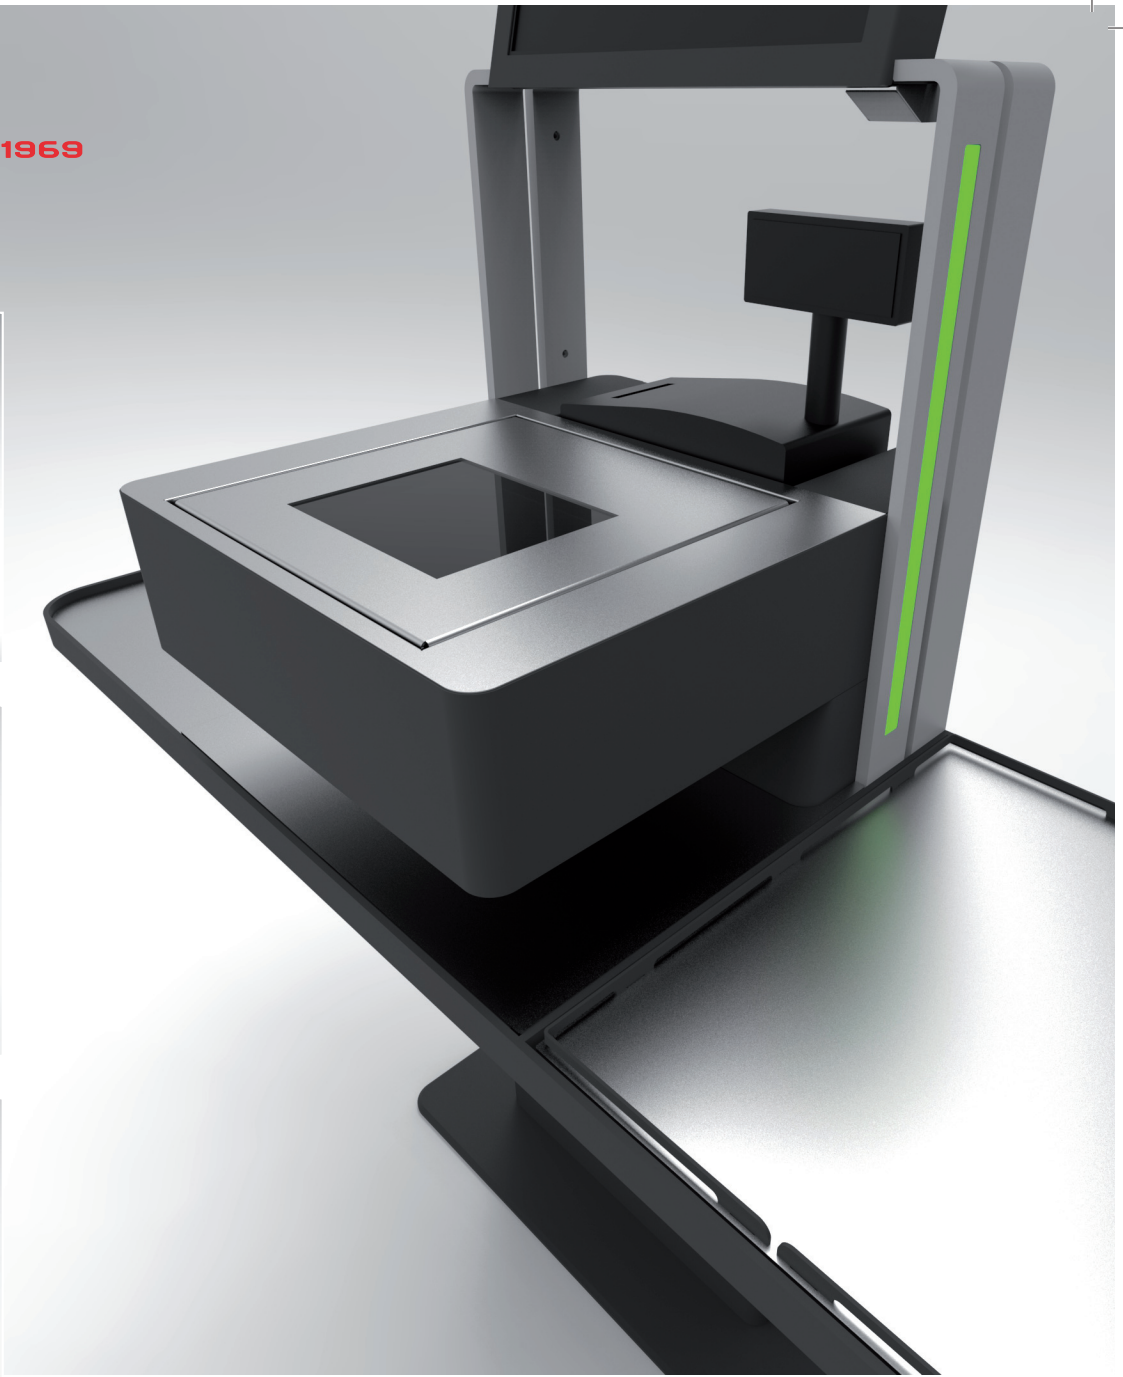

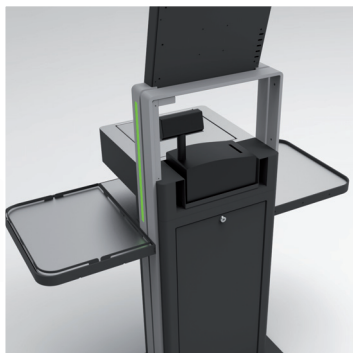

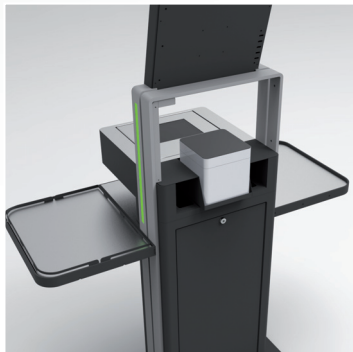

- Verification scale (bagging area)
- ELZAB Saturn II main scale
- Datalogic Magellan 3550 USB code scanner
- IIYAMA 15" touch screen
- Windows 10 IoT, SATADOM 64 GB flash drive, 4 GB RAM
- UPS (soft application shutdown during a power outage)
- user Interface

Advantages of a self-checkout include:

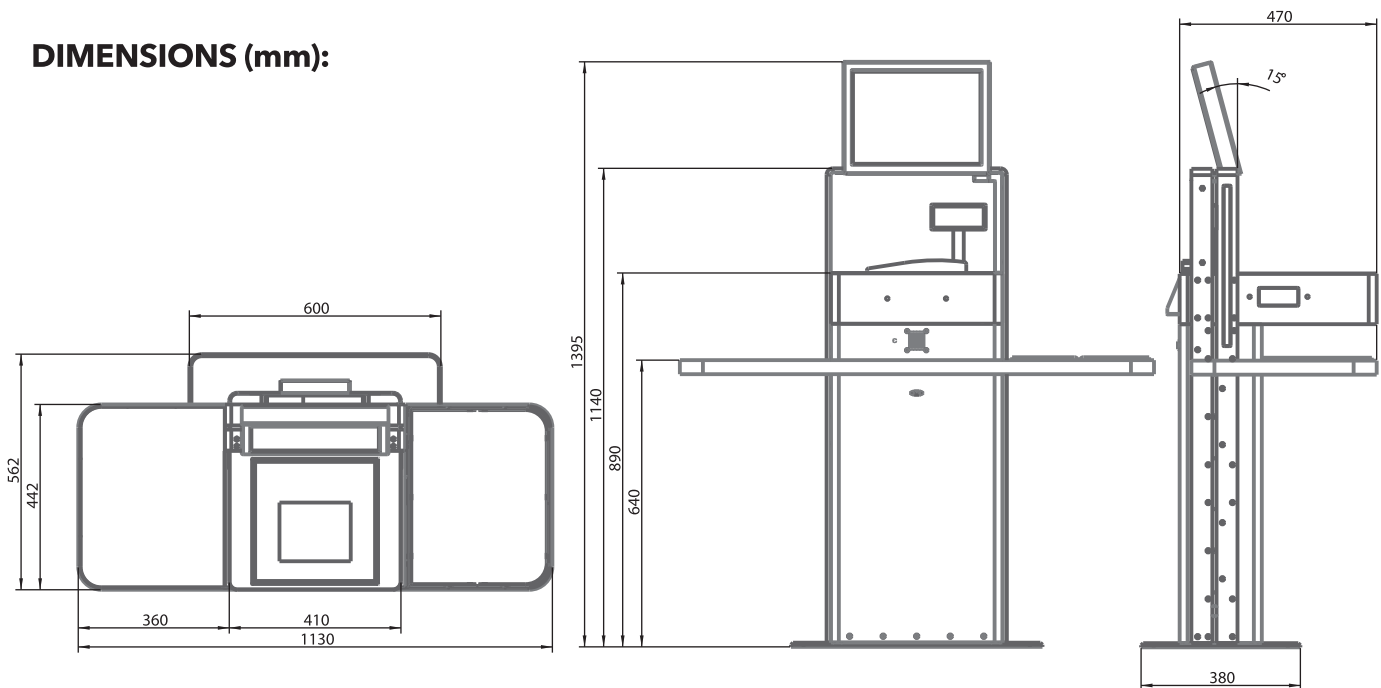

- shorter queues
- faster shopping, up to 20 products per basket on average
- personnel work time optimisation; employees may be assigned other tasks, which increases personnel efficiency
- increased customer satisfaction with an independent shopping process
- improved image of the business
