Price checking

The printing price checker allows for price checking of any product currently stored in store database which gets displayed on a build in smartphone-like display.

Speaking

Device is also capable of pronouncing all the price check queries and can be utilized to play any materials when not in use if necessary. This is especially useful for people with sight disabilities

Printing

The exceptionality of this solution is that we can assign any text to the product bar code. It is very convenient for having a current and correct product description

Labelling

The label can be easily attached to a specific item - such a solution can help you describe the product in accordance with requirements. It can also be used to attach any other information's required in given scenario.

You can get super description:

■ easy to read ■ easy to understand ■ easily visible.

Promotions

When not in use the screen can be configured to promote certain products or services depending on current business needs.

Regulations

EU regulations require to label foodstuff and non-food products with description concerning content, production or safety. Printing price checker guarantee that consumers can have access to complete and sufficient information.
