

ELZAB 1969

MULTIFUNCTIONAL POLE MOUNT SOLUTION

Pole mount solution by ELZAB is a functional and useful piece of retail equipment. It is intended for mounting devices used by the cashier such as a monitor, a fiscal printer, or a payment terminal.

This way, all devices necessary during the sale process are kept in one place in locations convenient for both the cashier and the customer. It can be delivered in any custom configuration selected from several sizes. You can pick the right monitor, printer, or terminal bracket and other equipment.

Pole mount solution is excellent for larger stores, such as supermarkets and in pharmacies or clothes shops. It is a lifesaver in difficult conditions when there is not enough room on the counter. Pole mount solution is the perfect tool to improve space management.
